CORE COMPETENCIES & TOOLS

- AI Platforms & Practical Automation: Claude, Microsoft Copilot, Kiro, Python Scripting, Task & Admin Automation
- Project & Program Operations: Multi-Workstream Coordination, Agile/Scrum, Backlog Management, Lightweight Process Design, Business Reviews
- Collaboration & Productivity Suite: Jira, Confluence, Slack, Google Workspace / Spreadsheets, Slide Decks, GitHub
- Stakeholder & Adoption Management: Non-Technical AI Coaching & Habit Building, Cross-Functional Alignment (Growth, Brand, Media, Data), SME Collaboration
- Reporting & Metrics: Performance Tracking, Automated Dashboards, Feedback Loops, Operational KPIs

EDUCATION

Python Programming and AI

@ Code Academy

Completed: April 2026 | Vilnius, Lithuania

Master of Law

@ Vilnius University

Graduated: 2006 | Vilnius, Lithuania

LANGUAGES

- English: Fluent (Full professional written and spoken capability)
- Lithuanian: Native / Fluent
- Russian: Fluent
- German: Intermediate
- Norwegian: Basic
- Polish: Basic

PROFESSIONAL SUMMARY

Dynamic and process-driven AI Enablement and Project Lead with over 15 years of experience building lightweight processes, cross-functional programs, and technical adoption initiatives. Proven track record in guiding non-technical teams—across Growth, Brand, Media, and Data—to build practical, everyday habits around AI tools including Claude, Copilot, and Python-driven automation. Adept at keeping fast-moving AI initiatives visible and organized using tools like Jira, Confluence, Slack, spreadsheets, and slide decks. Strong cross-functional communicator skilled at driving alignment, establishing automated reporting rhythms, and keeping multi-workstream projects on schedule without needing formal authority.

PROFESSIONAL EXPERIENCE

AI Consultant & Enablement Lead @ Micro1, Appen, Volga Partners

January 2025 – Present | Vilnius, Lithuania

- Own and coordinate dedicated AI workstreams, ensuring high visibility, clear progress tracking, and cross-functional alignment across multiple technical and non-technical stakeholders.
- Leverage generative AI tools (Claude, Copilot, Python scripts) to automate daily admin, research, and project reporting routines, serving as a hands-on power user.
- Translate complex AI capabilities and workflows into modular, highly accessible guides, decision trees, and step-by-step walkthroughs for diverse user groups.
- Coach and empower non-technical colleagues to build daily habits using AI tools to work smarter and accelerate workflow efficiency.
- Establish structured backlogs and organized documentation repositories across Jira, Confluence, and GitHub to prevent duplicate efforts and maintain clarity.

Learning & Development Lead @ Light Conversion

2024 – 2025 | Vilnius, Lithuania

- Managed end-to-end enablement programs, designing lightweight operational processes that cross-functional teams adopted for long-term workflow optimization.
- Partnered closely with internal engineers, developers, and external content partners to review, curate, and streamline technical documentation and program assets.
- Established recurring reporting rhythms and utilized platform analytics to track initiative milestone progress and present clear updates during business reviews.
- Converted complex technical software and hardware operational workflows into clear, modular training guides and structured procedural backlogs.

Senior Training Manager @ Samsung Electronics Baltics

2016 – 2023 | Vilnius, Lithuania

- Led a high-performing team of 12 across the Baltics, overseeing technical product enablement and operational process rollout for 2,000+ frontline and support personnel.
- Successfully fostered tool and process adoption across diverse teams without formal direct authority, achieving high engagement and compliance.
- Analyzed CSAT, performance KPIs, and engagement data to evaluate initiative impact, maintaining streamlined reporting dashboards for executive reviews.
- Designed AI-assisted support workflows and interactive decision trees that significantly improved operational resolution speed and user knowledge retention.

Training / Knowledge / Content Manager @ CSC Baltic

2008 – 2016 | Vilnius, Lithuania

- Headed a 15-person delivery and content team, establishing robust onboarding structures and systematic procedural workflows across global teams.
- Collaborated with technical subject matter experts (SMEs) to design structured system guides, interactive decision trees, and backlog documentation.
- Conducted task and workflow analyses to optimize operational efficiency and resolve cross-departmental dependency blockers early.
