PROFESSIONAL SUMMARY

Strategic and innovative Learning & Development Expert and AI Training Consultant with over 15 years of experience leading competence development, instructional design, and technical enablement programs. Proven ability to partner with stakeholders to translate complex technical AI concepts, including Generative AI, Microsoft Copilot, and Claude, into high-impact, structured learning solutions such as tutorials, labs, and interactive walkthroughs. Highly skilled in leveraging learning platform analytics and instructional design principles to optimize content, drive enterprise-wide AI adoption, and enhance organizational performance. Adept at collaborating with Subject Matter Experts (SMEs) and external content vendors to deploy cutting-edge digital training solutions.

TECHNICAL AND CORE SKILLS

L&D; Strategy & Design: Instructional Design Principles, Digital Enablement, eLearning Content Development, Learning Theory, Blended Learning, Competency Development, Performance Improvement, Needs Analysis, Job & Task Analysis, AI Training & Technologies: Generative AI, Microsoft Copilot, Claude, Kiro, AI-driven Coaching, Technical Learning, Workforce Upskilling, AI Adoption, Learning Platforms & Tools: Learning Management Systems (LMS), Learning Experience Platforms (LXP), Content Management Systems (CMS), GitHub, Python (Programming Basics), Analytics & Evaluation: Learner Feedback Loops, Platform Analytics, Performance KPIs, Training Optimization, NPS, CSAT, Engagement Data, Collaboration & Leadership: Stakeholder Engagement, SME Partnership, External Vendor & Contributor Collaboration, Team Leadership, Program Management, Content Development: Tutorials, Lab Exercises, Step-by-Step Walkthroughs, Guidance Scripts, Decision Trees, Use-Case-Based Learning Assets

PROFESSIONAL EXPERIENCE

AI Consultant - Micro1, Appen, Volga Partners (January 2025 – Present)

- Designed and curated advanced enterprise learning solutions and interactive walkthroughs on Generative AI tools (e.g., Copilot, Claude, Kiro) to accelerate workforce upskilling and support AI adoption.
- Translated complex technical AI workflows into practical, modular, and highly accessible tutorials, labs, and use-case-based learning assets for diverse user audiences.
- Developed structured guidance scripts, decision trees, and contextual learning interventions for AI-driven and automated coaching experiences.
- Utilized LMS solutions and GitHub for managing learning repository assets and collaborating on technical training content updates with internal and external partners.
- Incorporated continuous learner feedback and platform analytics to keep AI-focused learning content aligned with rapidly evolving technological capabilities and drive performance improvements.

Learning & Development Lead - Light Conversion (2024 – 2025)

- Managed end-to-end technical training design initiatives, creating robust digital enablement programs aligned with evolving technological capabilities and key organizational priorities.
- Partnered closely with internal engineers, developers, and external learning content vendors to review, curate, and integrate technical learning materials, ensuring high quality and relevance.

- Utilized LMS/CMS platform analytics and structured learner feedback loops to drive continuous content optimization and curriculum updates, enhancing learning effectiveness.
- Applied advanced instructional design principles and learning theory to convert complex hardware/software processes into clear, accessible training modules for diverse technical teams.

Senior Training Manager - Samsung Electronics Baltics (2016 – 2023)

- Developed AI-assisted training solutions for customer support operations, transforming complex, fast-evolving product specifications into practical eLearning modules, reducing time-to-proficiency.
- Led a high-performing team of 12 training professionals across the Baltics, overseeing technical product and process training delivery for over 2,000 frontline staff.
- Established modern instructional design frameworks utilizing blended learning methodologies, resulting in significant knowledge retention increases across technical teams.
- Analyzed NPS, CSAT, and LMS engagement data to measure the performance impact of training interventions and strategically drive content updates, proving ROI on L&D; initiatives.

Training / Knowledge / Content Manager - CSC Baltic (2008 – 2016)

- Headed a 15-person delivery and content team, establishing robust onboarding programs and step-by-step technical systems training for new and existing employees.
- Conducted thorough job and task analyses to author highly targeted training content, resulting in measurable improvements in support quality and first-call resolution rates.
- Collaborated extensively with technical subject matter experts to design structured systems training guides, interactive decision trees, and procedural workflows, enhancing operational efficiency.

EDUCATION

Python Programming and AI - Code Academy (Completed: April 2026)

Master of Law - Vilnius University (Graduated: 2006)

LANGUAGES

English (Fluent - Full professional written and spoken capability), Lithuanian (Fluent), Russian (Fluent), German (Intermediate), Norwegian (Basic), Polish (Basic)
