PROFESSIONAL SUMMARY

Strategic Learning & Development Expert and AI Training Consultant with over 15 years of experience leading competence development, instructional design, and technical enablement programs. Proven track record in translating complex technical concepts—including generative AI, Copilot, and Claude—into highly structured, engaging learning materials such as tutorials, labs, and interactive walkthroughs. Adept at partnering with internal subject matter experts (SMEs) and external content vendors to deliver high-impact enterprise digital training solutions. Highly capable of leverage platform analytics, learning theory, and user feedback to continuously optimize learning experiences.

TECHNICAL & CORE SKILLS

AI Concepts & Platforms: Generative AI, Copilot, Claude, Kiro, Technical Learning Design: Instructional Design Principles, Digital Enablement, eLearning Content Development, Content Assets: Tutorials, Lab Exercises, Process Walkthroughs, Guidance Scripts, Decision Trees, Systems & Tools: Learning Management Systems (LMS), Learning Experience Platforms (LXP), CMS, GitHub, Programming Basics, Collaboration: Stakeholder Engagement, SME Partnership, External Vendor & Contributor Collaboration, Evaluation & Metrics: Learner Feedback Integration, Platform Analytics, Performance KPIs, Training ROI

PROFESSIONAL EXPERIENCE

AI Training Consultant - *Volga Partners* (Vilnius, Lithuania, 2025 - Present)

- Design and curate advanced learning solutions and walkthroughs on Generative AI tools (including Copilot and Claude) to accelerate workforce upskilling.
- Translate complex technical AI workflows and platforms into practical, modular, and accessible tutorials and use-case-based learning assets.
- Develop structured guidance scripts, decision trees, and contextual learning interventions for AI-driven coaching experiences.

Learning & Development Lead - *LIGHT CONVERSION* (Vilnius, Lithuania, 2024 - 2025)

- Managed end-to-end technical training design initiatives, creating digital enablement programs aligned with evolving technological capabilities.
- Collaborated closely with internal engineers, developers, and external learning content vendors to review, curate, and integrate technical learning materials.
- Utilized LMS/CMS platform analytics and structured learner feedback loops to drive continuous content optimization and curricula updates.

Senior Training Manager - *Samsung Electronics Baltics* (Vilnius, Lithuania, 2016 - 2023)

- Developed AI-assisted training solutions for customer support operations, transforming complex, fast-evolving product specs into practical eLearning modules.
- Led a high-performing team of 12 training professionals across the Baltics, overseeing product and process training delivery for 2,000+ frontline staff.
- Established instructional design frameworks utilizing blended learning, achieving high knowledge retention rates.

- Analyzed NPS, CSAT, and LMS engagement data to measure the impact of training interventions on core business KPIs.

Training Management Lead - *CSC Baltic* (Vilnius, Lithuania, 2008 - 2016)

- Headed a 15-person delivery and content team, establishing robust onboarding programs and step-by-step systems training.
- Conducted thorough job and task analyses to author highly targeted training programs, resulting in measurable improvements in first-call resolution and support quality.

EDUCATION

Master of Law - *Vilnius University* (Vilnius, Lithuania, 2001 - 2006)

- Analytical studies emphasizing logical structuring, complex document drafting, and rule-based decision trees.

IB Diploma - *Oslo International School* (Oslo, Norway, 1993 - 2000)
